Introduction

This volume cumulates the indexes that appeared in the monthly issues of **Resources in Education** from January through June 1979. This cumulation is intended to be a companion volume to the individual issues of **Resources in Education**, where the complete resumes of educational documents and their availability appear. It will be most useful to those who have access to copies of the monthly journal.

The four indexes are arranged as follows:

Subject

Author

Institution

Clearinghouse Accession Number/ED Number Cross Reference Index

Each entry shows the title of the document and the ED number assigned to the complete resume when it was originally announced in **Resources in Education**. The searcher can use this number to locate a particular resume by referring to the ED number ranges that are displayed on the spine and title page of each monthly issue.

Subject Index

This index lists titles of documents under the major subject terms that have been assigned to characterize their contents. The subjects, which conform to those presented in the *Thesaurus of ERIC Descriptors*, are in alphabetical order.

As shown in the example below, the accession number is displayed below and to the right of the document title. Additional information about the document can be found under that number in the resume section.

The symbol // appearing after an accession number identifies a document that is not available from the ERIC Document Reproduction Service and that is not in the ERIC Microfiche Collection.
